

ANCHAL WADHWANI

COMPUTER SCIENCE UNDERGRADUATE | ASPIRING SOFTWARE ENGINEER

Karachi, Sindh, Pakistan • +92 310 3681117 • Wadhawanianchal@gmail.com • [linkedin.com/in/anchal-wadhwani-2802103a4](https://www.linkedin.com/in/anchal-wadhwani-2802103a4)

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science undergraduate at DHA Suffa University with a strong foundation in C, C++, Java, Node.js, React.js, SQL, HTML, CSS, and JavaScript. Experienced in developing academic software projects using Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Management Systems (DBMS), and web development principles. Passionate about building efficient software solutions, learning emerging technologies, and solving real-world problems. Currently seeking a Software Engineering, Web Development, or IT Internship to apply technical skills and gain practical industry experience.

EDUCATION

DHA Suffa University

Karachi, Pakistan

Bachelor of Science in Computer Science (BSCS) — Completed 4th Semester

Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Operating Systems, Information Security, Computer Organization & Assembly Language, Digital Logic Design, Calculus, Linear Algebra

TECHNICAL SKILLS

Programming Languages:	C, C++, Java, SQL, JavaScript (ES6+)
Web Technologies:	React.js, Node.js, HTML5, CSS3, JavaScript
Database:	MySQL, Database Design, ER Modeling, Relational Database Normalization
Core Computer Science:	Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Operating Systems, Information Security, Computer Networks (Basic), Computer Organization & Assembly Language
Tools & Version Control:	Git, GitHub, Visual Studio Code, IntelliJ IDEA, MySQL Workbench, Cisco Packet Tracer, Kali Linux, Ubuntu, Windows, Microsoft Office

ACADEMIC PROJECTS

Hospital Management System

C++, OOP, Data Structures

- Developed a console-based Hospital Management System to manage patient records, doctor information, appointments, and billing.
- Implemented Object-Oriented Programming concepts, including classes, objects, inheritance, and encapsulation.
- Utilized Data Structures to organize and manage patient and appointment data efficiently.

Airline Resource Allocation System

Java, Java Swing, OOP

- Developed a desktop-based Airline Resource Allocation System using Java Swing with separate Admin and User dashboards.
- Implemented flight management, passenger registration, ticket booking, reservation management, payment processing, and booking history modules.
- Applied Object-Oriented Programming concepts, including inheritance, encapsulation, polymorphism, and modular design.

Ultimate Fashion – E-Commerce Website

HTML, CSS, JavaScript

- Designed and developed a responsive e-commerce website featuring product listings, category navigation, and interactive user interfaces.
- Implemented responsive layouts using HTML, CSS, and JavaScript to ensure compatibility across multiple devices.
- Enhanced user experience through intuitive navigation and interactive web components.

ACHIEVEMENTS & ACTIVITIES

Retrieval-Augmented Generation (RAG) Workshop — GDG On Campus, DHA Suffa University

2026

Learned the fundamentals of AI-powered information retrieval, vector embeddings, and Large Language Models (LLMs).

Stranger Designs: UI/UX Event — Microsoft Learn Student Community (MLSC), DSU

2026

Gained practical knowledge of user-centered design, wireframing, prototyping, accessibility, and usability principles.

HASHCODE Coding Competition — GDG On Campus, DHA Suffa University

2025

Participated in algorithmic and logical programming challenges, strengthening problem-solving and analytical thinking skills.
